NAGRA Seven SERVICE BULLETIN FOR THE VERSION V2.10

This version will NOT erase the settings and parameters saved with previous versions.

New features

- This version will allow communication using the AAC (Advanced Audio Compression) algorithm when using the communication features of the NAGRA Seven. It is available as an optional extra and can be installed using a password.
- This version will allow communication using the OPUS compression algorithm when using the communication features of the NAGRA Seven. It is available as an optional extra and can be installed using a password.
- The possibility of naming edit files has been introduced. When saving an edit as a new index the file name can be modified to avoid having name repetition.
