2 RECORDING WINDOW DESCRIPTION

1 Current Date & Time

2 Battery status

3 Recording file format

12 formats can be set: HPCM-S / HPCM-M / MPCM-S /
MPCM-M / LPCM-S / LPCM-M / HMP3-S / HMP3-M / MMP3-S /
MMP3-M / LMP3-S / LMP3-M

4 Current folder

Folder A / Folder B / Folder C / Folder D / Folder E / Folder MUSIC

5 MARK position / MARK counter

3 marks can be entered when recording files.

6 Input Devices

IMIC / EMIC / LINE

7 Filter status

Filter active, this symbol appears

8 VOR or AGC status

9 PEAK status

10 Level meter

11 Run status

12 Recording duration

13 Recording time remaining

14 File name

3 BATTERIES

Insert 2 “AA” batteries taking care of the correct polarity and close the cover. Rechargeable batteries (NiCd or Ni-mH) can also be used but they cannot be charged inside the MEZZO.

The battery type can be chosen in the “System Settings” menu. Please choose the correct battery type according to battery so that MEZZO can display the correct remaining power level.

Installing batteries

1. According to the figure, slide and open the battery compartment cover.
2. Insert 2 “AA” batteries taking care of the correct polarity.
3. Replace the cover.

Symbol	Dry or rechargeable battery
	Sufficient
	About 30% remaining
	About 15% remaining
	About 5% remaining

4 HOLD

Sliding HOLD to [ON] will lock all keys to prevent activation of the keys accidentally during all modes, including power off.

Once the keyboard is locked, it doesn't work no matter what keys you press, the screen will show "HOLD". To UNLOCK the MEZZO, please slide HOLD to [OFF].

HOLD [ON]: Keys are locked.

HOLD [OFF]: Keys are unlocked.

5 DATE & TIME

Please set up DATE & TIME before the first use or following a reboot or long periods without use. Setting correct system DATE & TIME, will guarantee the accuracy of record time during recording.

You can check current time during recording.

1. Press the <MENU> key in STOP mode to enter the settings.
2. Select [System Settings] and press <REC/OK> key to enter.
3. Press <◀◀>> key to select [Date & Time] and press <REC/OK> key to confirm.
4. Press <▶▶> <■> key to select desired DATE & TIME information, press <◀◀>> keys to set value and

press <REC/OK> key when setting is completed.

5. Press <⏪> key to return to the main menu or press <MENU> key to exit.

Note:

Time and date information will be kept while you change batteries.

6 SELECT THE FOLDER

The MEZZO has 6 built-in default folders, they are [Folder A] [Folder B] [Folder C] [Folder D] [Folder E] [Folder MUSIC].

These 6 folders are displayed as [A] [B] [C] [D] [E] [M]

- . The MEZZO can identify audio files stored in these 6 folders and the root directory.
- . Non audio files stored in [A] [B] [C] [D] [E] [M] and sub-folders cannot be recognized.
- . Other folders and internal files in the memory cannot be recognized.

SWITCH FOLDER

1. Press <FOLDER>, popup folder list will appear.
2. Press the <⏪><⏩> key to select target folder, press the <REC/OK> key to confirm.
3. Press the <FOLDER> key to exit.

Note:

- . [A] [B] [C] [D] [E] [M] are default system folders. Please note that when deleting these 6 folders, they will automatically re-create upon start-up.

7 DELETE FILE

1. Press the < DELETE> key to show the DELETE MENU.

2. Delete files

Delete the file

.Press <◀◀◀><▶▶▶> to select [Delete this file] and press <REC/OK> key.

.Press <◀◀◀><▶▶▶> key to select [OK] and press <REC/OK> key to confirm.

Delete all the files in the folder

.Press <◀◀◀><▶▶▶> to select [Delete files in this folder] and press <REC/OK> key.

.Press <◀◀◀><▶▶▶> to select [OK] and press <REC/OK> to confirm.

Delete bookmark

.Press <◀◀◀><▶▶▶> to select [Delete bookmark] and press the <REC/OK> key.

.Press <◀◀◀><▶▶▶> to select [OK] and press <REC/OK> to confirm.

3. If you don't need to delete the file, please select [CANCEL] at STEP 2.

RECORD

2

1 RECORDING AUDIO IN THE FIELD

Before making a recording the compression mode needs to be chosen. If nothing is set in the templates prior to the first recording, then the “default” settings will be adopted. Please check the batteries before recording to make sure that recorder has enough battery power to record normally.

Press the centre key once more. The red LED will stay red and the record symbol is shown on the display. The levels can be seen on the display and adjusted during recording as necessary, assuming the AGC is not activated.

1 START recording

- Point the microphone towards the sound source.
- Press <REC> key to start recording.
- If screen status icon display ● and the recording LED is on, this indicates recording is under way.

2 PAUSE recording

- Press <▶|▶> key to pause.
- Press <▶|▶> key again to continue to record.

3 STOP recording

- Press and hold the <■> key for 3 seconds until recording stops.

2 ENTERING MARKERS

During record, press the <MARK/A-B> key to enter markers.

Note:

3 markers can be entered when recording files.

3 ADJUSTING INPUT LEVELS

In stereo or mono mode the input level can be adjusted using the <◀◀◀> or <▶▶▶> keys in steps of 1 dB from 0 dB to 40 dB for the microphone input.

1. Press <REC> key to start recording.
2. Press <▶▶▶/LEVEL+> key to increase input gain during recording process.
Press <◀◀◀/LEVEL-> key to decrease input gain during recording process.
3. Press and hold the <■> key to stop recording.

Note:

. AGC must be OFF.

4 CHANGE RECORDING FORMAT

The MEZZO supports 12 recording formats. PCM is up to 96 KHz 24 bit WAV lossless stereo. PCM format files are larger, but have higher fidelity. MP3 format file has good recording quality, yet smaller capacity.

1. Press the <MENU> key to enter the settings.
2. Press the <◀◀◀>>>> key to select [Recording settings] and press the <REC/OK> key to enter.
3. Press the <◀◀◀>>>> key to select [Format] and press the <REC/OK> key to enter.
4. Press the <◀◀◀>>>> key to select the desired recording format and press the <REC/OK> key to confirm.
5. Press the <MENU> key to exit settings.

The different recording formats are as follows:

RECORDING FORMAT	CODEC	CHANNEL
HPCM-S 96kHz 24Bits	PCM	Stereo
HPCM-M 96kHz 24Bits	PCM	Mono
MPCM-S 48kHz 24Bits	PCM	Stereo
MPCM-M 48kHz 24Bits	PCM	Mono
LPCM-S 48kHz 16Bits	PCM	Stereo
LPCM-M 48kHz 16Bits	PCM	Mono
HMP3-S 48kHz 320kbps	MP3	Stereo
HMP3-M 48kHz 160kbps	MP3	Mono
MMP3-S 48kHz 256kbps	MP3	Stereo
MMP3-M 48kHz 128kbps	MP3	Mono
LMP3-S 48kHz 128kbps	MP3	Stereo
LMP3-M 48kHz 64kbps	MP3	Mono

5 AUTOMATIC GAIN CONTROL (AGC)

AGC operates in the digital domain and allows the operator to make recordings without under / over modulating when the audio levels are unpredictable. If the level of sound is weak, AGC increases the gain automatically. When the volume of sound is loud, AGC reduces gain so that recording level will not exceed limits, to avoid distortion.

1. Press the <MENU> key to enter the settings.
2. Press the <◀◀◀>>>> key to choose [Recording settings] and press the <REC/OK> key to enter.
3. Press the <◀◀◀>>>> key to choose [AGC] and press the <REC/OK> key to enter.
4. Press the <◀◀◀>>>> key to choose [ON] and press <REC/OK> key to confirm
 [OFF]: Turns off AGC
 [ON]: Turns on AGC
5. Press the <MENU> key to exit settings.
6. Press the <REC> key to start recording.
 When “AGC” is used, LEVEL adjustments will not work.
7. Press and hold the <■> key to stop recording.

6 VOLUME OPERATED RECORDING (VOR)

By monitoring the input sound level, the MEZZO can switch to record mode automatically. The MEZZO stops recording automatically when sound level drops below a certain pre-set level. When the sound level increases again, it restarts recording.

If sound volume is lower than the pre-set level for 10 seconds, recording will stop and the MEZZO returns to PAUSE RECORDING so that you can save disk space and reduce empty file content.

1. Press the <MENU> key to enter the settings.
2. Press the <◀◀◀>>>> key to select [Recording settings] and press the <REC/OK> key to enter.
3. Press the <◀◀◀>>>> key to select [VOR] and press the <REC/OK> key to enter.
4. Press the <◀◀◀>>>> key to select sensitivity level and press the <REC/OK> key to confirm.
 - . [OFF]: Turn off VOR
 - . [L-Sensitivity]: Turn on VOR and sensitivity is set to low. More volume needed to start recording.
 - . [M-Sensitivity]: Turn on VOR and sensitivity is moderate. Moderate volume will start recording.
 - . [H-Sensitivity]: Turn on VOR and sensitivity is high. Less volume needed to start recording.
5. Press the <MENU> key to exit settings.
6. Press the <REC> key to start recording.
7. Press and hold the <■> key to stop recording.

Note:

AGC will not work when VOR is on.

7 MICROPHONE POWER SUPPLY (Mic Power)

Some external microphones require power to be supplied from the recorder. The MEZZO can provide 3V power to supply external electret microphones. Please set this function when you need to turn on the power supply.

1. Press the <MENU> key to enter the settings.
2. Press the <◀◀◀><▶▶▶> key to select [Recording settings] and press the <REC/OK> key to enter.
3. Press the <◀◀◀><▶▶▶> key to select [Mic Power] and press the <REC/OK> key to enter.
4. Press the <◀◀◀><▶▶▶> key to select [ON] and press the <REC/OK> key to confirm.
 - . [OFF]: Turns off microphone power supply.
 - . [ON]: Turns on microphone power supply.
5. Press the <MENU> key to exit settings.

Note:

- . If you supply power unnecessarily to a microphone, it may cause noise during the recording, and reduce battery life.

8 FILTER

Turn on Filter to decrease low-frequency noise during record. Low-frequency noise, for instance, could be the

low-frequency sound of the wind or the “hum” noise from an electrical device.

1. Press the <MENU> key to enter the settings.
2. Press the <◀◀◀>>>> key to select [Recording settings] and press the <REC/OK> key to enter.
3. Press the <◀◀◀>>>> key to select [Filter] and press the <REC/OK> key to enter.
4. Press the <◀◀◀>>>> key to select [ON] and press the <REC/OK> key to confirm.

[OFF]: Turns off Filter.

[ON]: Turns on Filter.

The top of screen displays "  " indicating filter is on.

5. Press the <MENU> key to exit settings.

PLAYBACK

3

1 PLAYBACK

The MEZZO supports: WAV, MPEG1-layer II (MP2), MPEG1-layerIII(MP3) and WMA playback formats.

1. START PLAYBACK

. Press the <▶▶> key and the machine starts play the selected file immediately.

2. PAUSE PLAYBACK

- . Press the <▶▶> key to pause during playback process.
- . Press the <▶▶> key again, to continue playback.

3. STOP PLAYBACK

- . Press <■> to stop the file playback.

4. PREVIOUS TRACK / NEXT TRACK

- . Press <◀◀> to skip to the start of the previous track.
- . Press <▶▶> to skip to the start of the next track.

Note:

If you added bookmarks, press <◀◀><▶▶> key to jump between bookmarks.

5. REWIND / FORWARD

- . Press <◀◀> without letting go, then release key to stop rewind.
- . Press <▶▶> without letting go, then release key to stop forward.

2 A-B REPEAT

1. Press the <⏮><⏭> key to select the file.
2. Press <▶▶> to start playback.
3. Playback to the start of the portion to be repeated, press <MARK/A-B> to set the start point A.
 - . Screen displays: A
4. Playback to the ending of the portion to be repeated, press <MARK/A-B> key again to set-up the B point.
 - . Screen displays: A-B
5. Exit A-B repeat mode
 - . Press the <MARK/A-B> key at third time, exit A-B mode and continue to playback the file.
 - . Press the <■> key to exit A-B repeat mode and stop playback.

Note:

- . Rewind / Forward works normally under the A-B repeat mode.
- . You cannot use A-B repeat mode across tracks.
- . You can pause playback while in A-B repeat mode.

3 REPEAT MODE

You can set the playback mode to three modes: [Sequential], [Loop Once] or [Loop].

1. Press the <MENU> key to enter settings.
2. Press <⏮><⏭> to select [Playback Settings] and then press the <REC/OK> key to enter.
3. Press <⏮><⏭> to select [Repeat] and press <REC/OK> key to enter.
4. Press <⏮><⏭> to select cycle mode and press the <REC/OK> key to confirm.
 - . [Sequential]: Playback all the files in the folder in order, then playback stops.
 - . [Loop Once]: Repeat the file.
 - . [Loop]: Repeat all the files in folder.
5. Press the <⏪> key to move back through the menu or press <MENU> to exit the settings menu.
6. Press <⏭> to playback the file.
 - . No icon when using Sequential.
 - . Icon displays 1⏮ under Loop Once mode.
 - . Icon displays ⏮ under Loop mode.
7. Press <⏹> key to stop.

MENUS

4

1 OPERATIONAL APPROACH

All of the settings and parameters of the MEZZO are made through a selection of menu's.

Press the <MENU> key and a sub-menu appears giving access to the "Recording Settings", "Playback Settings" and "System Settings".

1. Enter menu

- . Press the <MENU> key to enter sub-menu in STOP mode.
- . Press the <MENU> key to enter "Playback settings" in PLAYBACK mode.

2. Up/down through menus

- . Press <⏮> and scroll up to browse menu options.
- . Press <⏭> and scroll down to browse menu options.

3. Enter this option

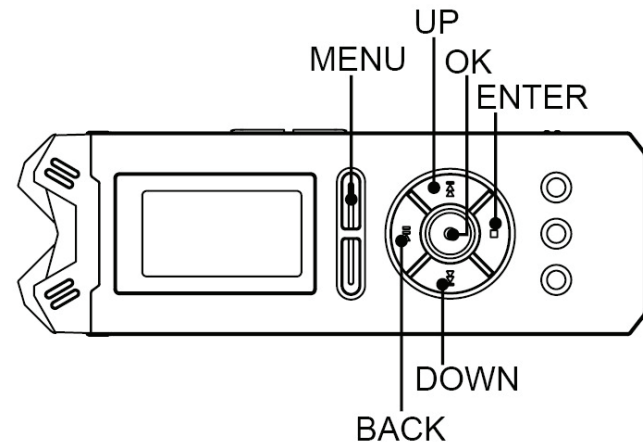

- . Press the <■> key to select option.

4. Set up parameter

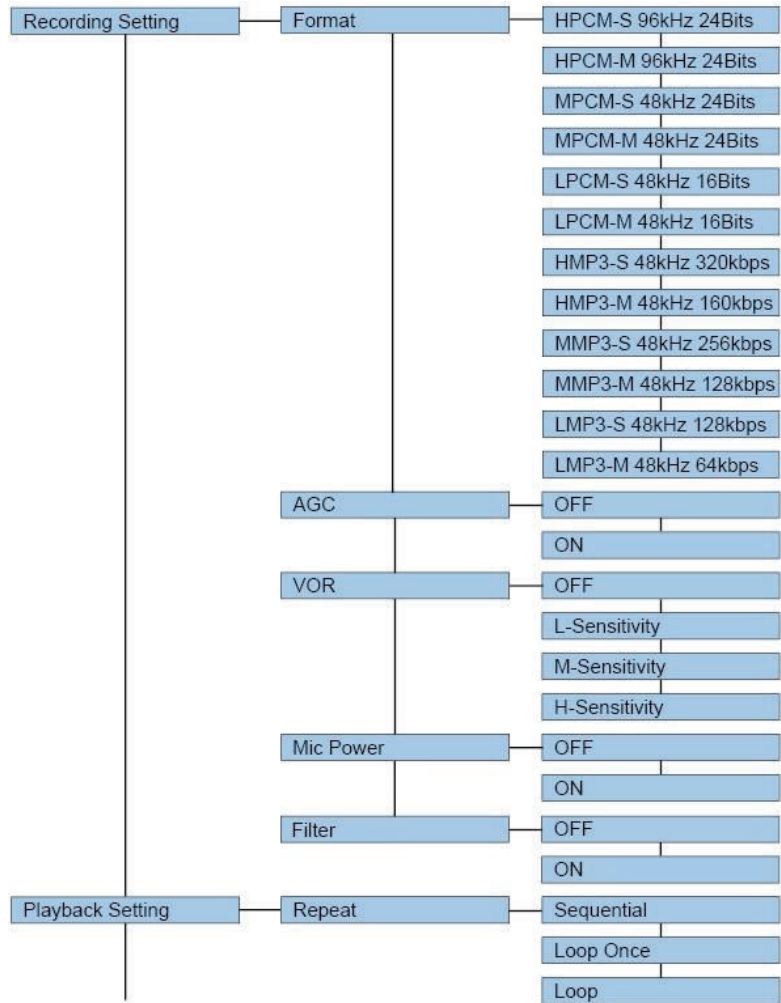

- . Press the <⏪> key to set up parameter and press the <REC/OK> key to confirm.

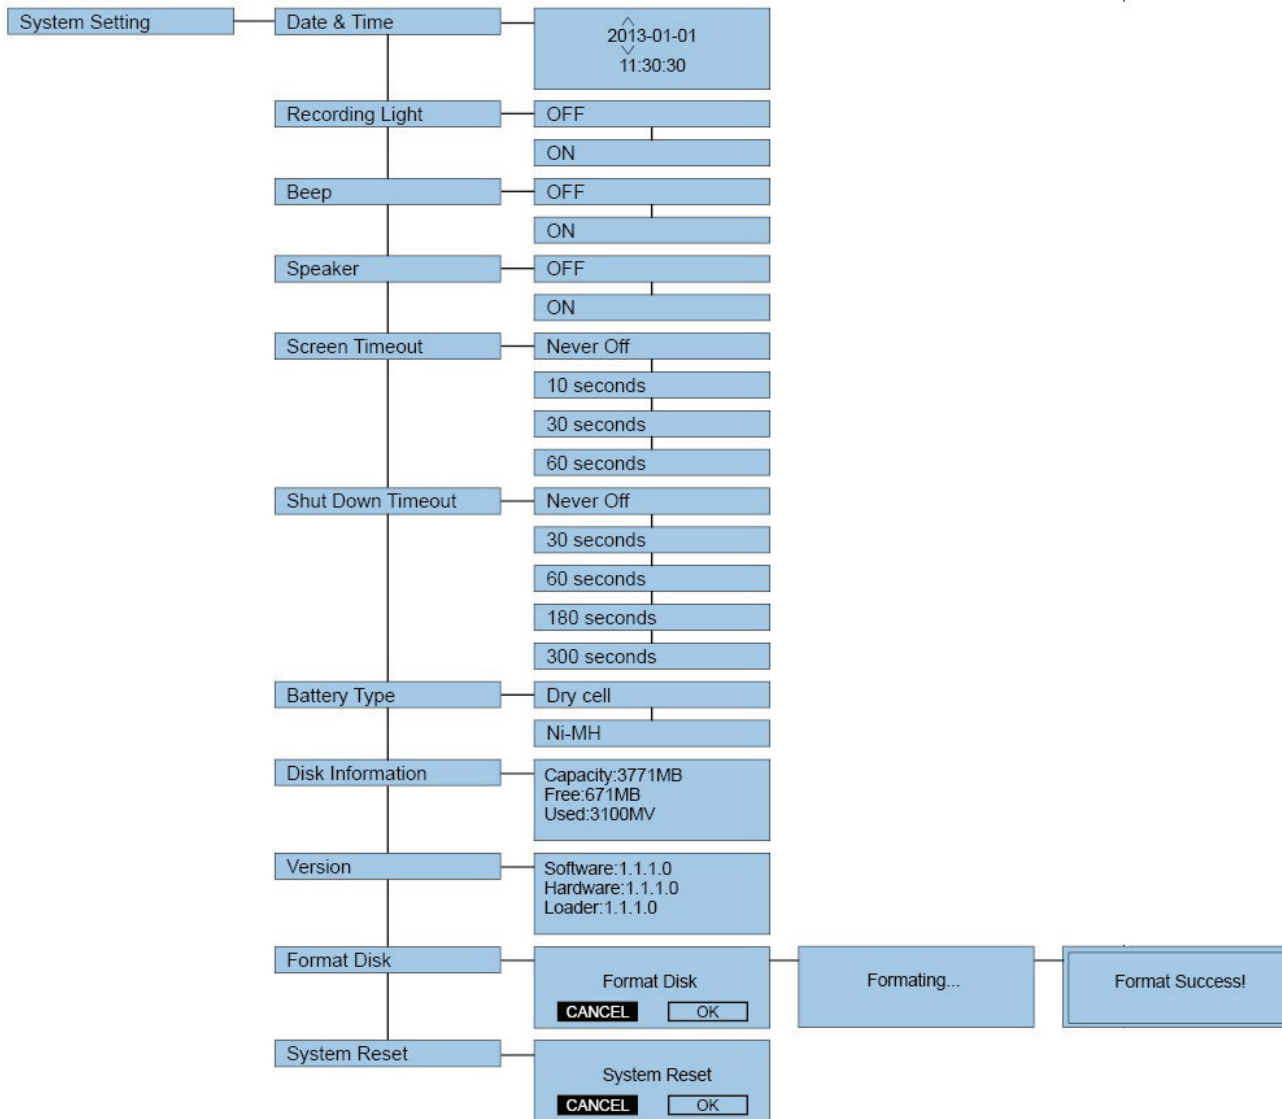

5. Exit menu

- . Press the <⏪> key to back-step through the menu.
- . Press the <MENU> key to exit and return to STOP mode.

2 OPTIONS

Recording settings		
Format	Set recording format. [HPCM-S]: 96kHz-24Bits PCM Stereo [HPCM-M]: 96kHz-24Bits PCM Mono [MPCM-S]: 48kHz-24Bits PCM Stereo [MPCM-M]: 48kHz-24Bits PCM Mono [LPCM-S]: 48kHz-16Bits PCM Stereo [LPCM-M]: 48kHz-16Bits PCM Mono [HMP3-S]: 48kHz-320kbps MP3 Stereo [HMP3-M]: 48kHz-160kbps MP3 Mono [MMP3-S]: 48kHz-256kbps MP3 Stereo [MMP3-M]: 48kHz-128kbps MP3 Mono [LMP3-S]: 48kHz-128kbps MP3 Stereo [LMP3-M]: 48kHz-64kbps MP3 Mono	Page 16

	[Format]:HMP3-S [AGC]:OFF [VOR]:OFF [Mic Power]:ON [Filter]:OFF [Repeat]:Sequential [Recording LED]:ON [Beep]:OFF [Speaker]:ON [Screen Timeout]:30 seconds [Shut Down Timeout]: 300 seconds [Battery Type]:Dry cells [Folder]:A [LEVEL]:15 [VOLUME]:-32	
--	---	--

Note:

- . System settings can only be accessed in STOP mode.
- . Long press the <MENU> key in STOP mode to enter settings menu. Settings menu includes [Recording settings] [Playback Settings] and [System Settings] .

TROUBLE SHOOTING

5

1 SYSTEM TIPS

While using the MEZZO, some information tips or error messages may appear. Primary causes and solutions are listed below.

Note:

. You can try the following instructions to troubleshoot the problem yourself. Please contact to our customer support for additional information.

SYSTEM TIPS	Causes & Solution
"Low Power"	. Batteries are exhausted ——Change internal batteries
"HOLD"	. HOLD ON ——Switch to HOLD switch to the OFF position and retry
"No File"	. No files in current folder
"Failed to record"	. System error ——Reinstall default settings and format disk
"Failed to open work folder"	. Disk or system error ——Turn off recorder, reboot and retry. If problem prevails, re-format disk
"Failed to scan file"	. Disk or system error ——Turn off recorder, reboot and retry. If problem prevails, re-format disk

"Too many files in the folder "	. The MEZZO can read the first 1000 files in any folder. ——Delete some files
"Failed to open file"	. File is damaged . File format is unsupported
"Low free space"	. Internal memory is full ——Delete some files
"Disk Error and power off"	. Error occurs ——Format disk
"Format Failed"	. Problem occurs when formatting disk. Cannot complete formatting ——Please retry formatting. If problem continues, use a computer to format disk
"AGC is opening."	. Cannot adjust LEVEL or set VOR under this condition ——Retry to adjust LEVEL or set VOR after cancelling the AGC function
"VOR is opening. "	. Cannot open AGC under this condition ——Retry to open AGC after cancelling VOR function
" The file can't FF "	. Some WMA files do not support fast forward mode
" The file can't FB"	. Some WMA files do not support rewind mode
" The file can't set AB"	. Some WMA files do not support A-B repeat mode
" The file can't mark"	. Some WMA files cannot accept bookmarks

2 FAQ

You can try the following instructions to troubleshoot problems. Please contact to our after-sales service department if the problems continue.

FAULT PHENOMENON	CAUSES AND SOLUTION
Cannot Boot	. Wrong battery polarity ——Correct polarity . Low battery ——Install new batteries . HOLD ON ——Switch to HOLD OFF and reboot
Speaker Doesn't Work	. Lowest volume is set ——Increase the volume .Headphone inserted ——When inserting headphone, speaker stops working automatically. Pulling out headphone connector, allows the internal speaker to work again. . The option "SPEAKER" in "System Setting" is "OFF". ——Set the option "ON"
When Inserting Headphone, The headphone doesn't	. Headphone failure ——Change a headphone

work	. Headphone not inserted correctly into the bottom jack socket —Please insert headphone to the bottom of jack
Cannot Record	. Not enough storage capacity —Delete some files or format disk
Recorded file empty	. Recording level too low, MIC did not receive any sound —increase record gain and record again
Recorded File Aborts Automatically	. VOR is ON —Record pauses automatically when level is below VOR trigger level.
Low Volume of Recorded File	. Some audio details cannot be heard due to low volume —Turn up volume . Gain too low when recording causes level of recorded file to be too low —External software may be used to enhance recorded level. Please be careful to use a suitable record gain in future
Recorder Stop Functioning Normally	. This may be caused by battery contact fault or low battery reserve. The MEZZO may crash —Take out batteries and replace them with 2 new batteries and retry . Disk or system error —Recover system setting and format disk
Screen Time Display as "□□□□-□□-□□ □□:□□:□□"	. No file in recorder —If there is no file in recorder, time information cannot be displayed
Incomplete Menu Display	. In the playback process, "Recording settings" and "System Settings" are not adjustable, so the menu will only display "Playback Settings"

ADDITIONAL INFO

1 SPECIFICATIONS

GENERAL	
Compression type	PCM ,MP3
Sampling rate	96KHz
Playback format	WAV ,MP2 ,MP3 ,WMA
Frequency response	20Hz ~40KHz,+0.5dB
SNR(Playback)	94dB (bandwidth 20Hz~22KHz,ASA "A" weighted)
SNR (MIC channel)	90dB (Mic input +19dB Pre-amp + A/D, 20Hz to 22KHz,ASA "A" weighted)
Dynamic range(Line in)	>90dB
MIC EIN	>122dB A weights

PHYSICAL	
Weight	92g (without batteries)
Dimensions	135.2(L)*44(W)*22.5(H) mm
Operating temperature	0~70°C
Operating humidity	20%~80%

INPUTS & OUTPUTS	
MIC filter	100Hz~40KHz
MIC Max. Gain	40dB
MIC Min. Gain	0dB
Headphone Max. outputs	30mW (left) + 30mW (right) (16Ω)
Built-in MIC	Built-in stereo microphone
MIC IN	3.5 mm stereo jack connector
LINE IN	3.5 mm unbalanced stereo jack connector
Stereo headphone output	3.5 mm stereo jack connector

POWER SUPPLY	
Battery	2 × “AA” dry or rechargeable batteries
USB	Mini USB jack
Consumption	138mW(Standby) / 192mW(Recording)

2 SAFETY STATEMENT

Product Safety

- . Do not place any heavy item on the recorder
- . Do not drop the recorder or accessories
- . Do not use the MEZZO in very wet environments
- . Do not use chemicals or detergents to clean the recorder
- . Do not use the recorder in excessively dusty or smoky areas
- . Do not use the recorder when there is lightening
- . Do not open / disassemble the recorder
- . Do not use the MEZZO close to ferromagnetic substances

Battery Safety

- . Do not put the batteries into an open fire or heat the batteries excessively; this will lead to battery explosion.
- . Do not invert battery polarity.
- . Do not mix new batteries with the semi-used batteries
- . If batteries appear hot, please stop using the MEZZO immediately.
- . Do not attempt to charge the alkaline batteries
- . Please keep batteries out of the reach of the children.
- . Do not use the damaged batteries.
