

New software for ARES-P II+ / ARES-BB+, version V3.20.**New:**

Fader start. In the Ares-P II+ sub-menu "Settings-Side key", the function Fader start has been added. When selected and the red side button is pressed, playback will start. In the Ares-BB+ go to the sub-menu "Settings- Start/Stop config."

Loop mode. In the sub-menu "Settings-Automatic skip", the function "Index loop" has been added. When selected and the play key is pressed, the same selected file will play in a loop mode.

Red led level. In the sub-menu "Setting" a new function is added to allow the reference level for the red modulo led to be pre-set. Four possibilities are available (from 0 dB to +9 dB). Beware if the +9 dB is selected, every time the red led lights up, it indicates overload.
